

**Communities  
Can Have  
An Impact**

# VITAL TOLK

**SYDNEY VITAL**  
TRANSLATIONAL CANCER RESEARCH

**CANCER RESEARCH OUTCOME  
SHOULD REACH YOUR COMMUNITY**

# WHO WE ARE

We are **Sydney Vital**, a translational cancer research centre based at Royal North Shore Hospital.

We are funded by the Cancer Institute NSW and the University of Sydney.

Our aim is to take research from the laboratory bench and put this into practice.

We bring together over 400 cancer researchers who share Sydney Vital's goal to ensure that the latest advances in cancer prevention, treatments and care are available to patients in the shortest time possible.

# WHAT IS

VITAL  
TALK

To further achieve our goal of taking research from the lab and putting it into practice, this time, we are bringing translational cancer research into **LOCAL COMMUNITIES**.

**VITAL TALK** is proposed to invite our researchers, scientist and doctors to give **presentations** on the latest cancer treatments, prevention and research at your **community clubs**.

Through **VITAL TALK**, we want to get the public and the local communities engaged with cancer research and raise the awareness of the importance of translational cancer research.

## HOW YOU CAN HELP

1. Invite us to your event to give a presentation

2. Publicize the event to your members and community

## COMMON OUTCOMES

Raise Awareness of  
Cancer Research in Your  
Community

Enrich Brand Values

## WHAT WE WILL DO

1. Provide the speaker and coordinate presentations
2. Advertise the event to our community and wider public
3. Recorded live webcast of presentations and publish them online

**Your involvement in enlightening the local communities  
with cancer research is much appreciated.**
